truly honored to recognize Lieutenant Colonel Alexander Jefferson on his celebration of service to our country. It was his 100th birthday. We sang happy birthday to him, and he danced along with many of us, even in the crisp cold in the city of Detroit, in the middle of the field.

RECOGNIZING HASSAN JABER

Ms. TLAIB. Mr. Speaker, I rise today to recognize numerous contributions of Hassan Jaber to the communities of Wayne County, Michigan, as he retires after more than 40 years of service to ACCESS.

During his time in ACCESS, Hassan Jaber has been a leader in expanding its programming to include more than 100 platforms in 10 locations to assist residents across the region.

He has created partnerships locally and nationally to advocate for policy initiatives to fight bigotry, advance civil rights, and create a better quality of life for immigrants and other vulnerable populations.

I know Hassan Jaber personally. With every obstacle, he never wavered in leading with compassion and keeping the community at the center of his work.

Hassan Jaber's leadership and forward-thinking approach have solidified his legacy as a community leader. His mentorship helped me grow into the passionate advocate I am today.

Please join me in recognizing Hassan Jaber's work on behalf of residents of Michigan's 13th Congressional District and southeastern Michigan as we wish him well on the next chapter in his life.

RECOGNIZING EDWARD LONGENECKER ON HIS 100TH BIRTHDAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. CLOUD) for 5 minutes.

Mr. CLOUD. Mr. Speaker, I rise today to honor Edward Longenecker and wish him a happy 100th birthday.

Mr. Longenecker is a World War II veteran who has a steadfast love and devotion to God, his family, and his country.

He is from my hometown of Victoria, Texas. Today, we honor him for his service to the United States Army Air Corps as a radio operator and nose gunner on the B-24 bomber in the 451st Bomb Group, 726th Squadron.

During World War II, on July 14, 1944, he and his fellow airmen traveled to Petfurdo, Hungary, for their 29th combat mission. What they expected to be a routine mission was anything but when they began to receive anti-aircraft fire that took out two of the aircraft's engines. From the nose gunner position, he received word that they were dropping elevation very quickly. The pilot made the call urging everyone to jump. Mr. Longenecker headed to the flight deck to retrieve his parachute.

On the flight deck, he saw his ball gunner about to jump and gave him a good luck salute. Then Mr. Longenecker jumped.

Everyone who jumped before him was captured, but he landed on top of a hill and began taking on heavy fire from Yugoslav soldiers that were sympathetic to the Germans.

He made his way to a nearby forest line, crawled under a briar bush, and stayed under that bush until nightfall. That first night, he slept near a lake. The second night, he stayed in a pile of hay where he could hear a group of people playing the guitar and singing. To him, this was one of the most beautiful sounds he had heard simply because there wasn't a sign of war anywhere.

On the third day, he ran out of the wood cover and met a young boy. This boy took him to a nearby village where he ate, bathed, and rested. Eventually, Mr. Longenecker was taken to a house where an American lieutenant was waiting. Upon his safe arrival, he was informed that he had miraculously walked through an active minefield unscathed.

It is incredible to think how his life could have been cut short, but it has lasted these 100 years.

After serving in the military, Ed Longenecker became an electrical engineer and lived a long, full life, married to his wife, Marie, for 59 years until she passed in 2006. He has two daughters, five grandchildren, and three great-grandchildren. I know many of them, and they are a precious, honorable family, truly a legacy.

Edward Longenecker is a true American hero, and we are indebted to him for his great service to our Nation. It is an honor to celebrate his life today. I hope he has a wonderful 100th birthday.

RECOGNIZING THE LIFE AND SERVICE OF NORMA FINK ON HER 100TH BIRTHDAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Florida (Mr. DEUTCH) for 5 minutes.

Mr. DEUTCH. Mr. Speaker, I rise today to honor an extraordinary trail-blazer, philanthropist, and public servant in south Florida, Mrs. Norma Fink, on her 100th birthday.

Born Norma Mager, in the Bronx, New York, on November 16, 1921, Norma has spent a century giving back to those around her. In 1942, Norma graduated from New York University with a bachelor's degree in economics and a minor in geology, the only woman to graduate with that honor at the time.

Shortly after, she put her degree to work by joining the Department of War to assist with the military supply chain while her husband, Robert Fink, served in our Nation's Armed Forces during World War II.

After the war, Norma worked in her father's bakery, Mager and Throne Bread Bakery. During this time, she became enamored with jazz music and

made friends with many local musicians who were involved with the civil rights movement. Inspired by their work, Norma began contributing the money she made to support civil rights initiatives in the South. This became an ongoing passion of hers.

After moving to Plantation, Florida, in 1972, Norma continued her legacy of supporting the enrichment of the community by joining the city's Parks and Recreation Department, where she still works at the age of 100.

Additionally, she began spending her time and money supporting local charities. Following the loss of her daughter, Marian, to breast cancer in 2002, Norma dedicated herself to helping others suffering from cancer.

Norma's spirit of persistence, generosity, and service to her community is an inspiration to all of us in south Florida. It is an inspiration to generations of Americans.

To honor her legacy, the city of Plantation, her home for nearly half a century, has designated Norma Fink Day in honor of the oldest and longest parttime employee in that city's history.

I join the entire south Florida community in wishing Norma Fink a happy 100th birthday surrounded by her loved ones. I thank her for her dedication to bettering the lives of everyone in south Florida.

MAKING HISTORY WITH BIPARTISAN INFRASTRUCTURE BILL

Mr. DEUTCH. Mr. Speaker, I rise today to acknowledge the historic day yesterday in this Nation's history.

The legislation that the President signed into law was overwhelmingly bipartisan in the Senate, and it was overwhelmingly supported by the American people. Why? Because it is the largest dedicated bridge investment since the construction of the Interstate Highway System. It is the largest investment in public transit and passenger rail since the creation of Amtrak.

It expands broadband to every corner of our country so that every American has access to reliable, high-speed internet.

It secures clean water, making the largest investment in clean drinking water and wastewater infrastructure in American history.

This is what we have been clamoring for, in a bipartisan way, as long as I have been serving in this Congress. Yesterday, President Biden delivered. He did it with the bipartisan support of the Senate and the overwhelming support of the American people.

Unfortunately, in this Chamber, my colleagues on the other side view any sort of bipartisan effort like that as too difficult to support, too difficult to stand with the Republicans and Democrats in the Senate, too difficult to stand with Democrats here, and too difficult, apparently, to stand with the America people in moving forward with a massive infrastructure plan that will help strengthen every community across our country.

Mr. Speaker, I am so proud that this House joined with the Senate in sending this legislation to President Biden.

Yesterday, as I said, was a historic day as President Biden signed the infrastructure bill into law and as we move forward to the Build Back Better Act.

Again, I note for my colleagues here, this too is so popular throughout America because everyone understands that if we invest in the American people, if we take the kind of action that is necessary to lower healthcare costs and childcare costs, provide universal pre-K, and make investments to combat climate change that we will be making America more competitive on the global stage, something that my colleagues in this Chamber often talk about.

I hope that they will recognize the opportunity to do exactly that in passing the Build Back Better Act when we vote on it this week.

HONORING THE LIFE AND LEGACY OF BERNARD MARIE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CLINE) for 5 minutes.

Mr. CLINE. Mr. Speaker, I rise today to honor the life and legacy of Bernard Marie, who recently passed away at the age of 82.

As a young 5-year-old living in Normandy, France, Marie often told the story of being rushed into his basement by his grandparents in the early morning of June 6, 1944.

It was there that his family sat for 16 hours in the dark without food or water before his mother emerged from the cellar to hug an American GI after realizing their village had finally been liberated from German occupation.

Marie said that witnessing the D-Day invasion instilled in him a lifelong respect for World War II veterans, and he was forever grateful for those who secured his country's freedom.

Later in life, when he moved to the United States, he began hosting an annual luncheon to honor local World War II veterans wherever he was living to show his support for them and their families.

When he settled in Roanoke, Virginia, in 2021, he brought the event with him. These luncheons served as a place for veterans to come together and share their experiences—some for the first time.

Aside from the luncheons, Marie helped raise money for the National D-Day Memorial in Bedford. He sat at the bedside of servicemembers when they were ill. He even worked to award the French Legion of Honor medal to nearly 150 American veterans. He said that his goal was not only to honor these heroes but to ensure they were never forgotten.

I was terribly saddened to learn of Mr. Marie's passing. He meant a great deal to western Virginia, and he will not soon be forgotten. IMPACT OF INFRASTRUCTURE INVESTMENT AND JOBS ACT ON NEVADA

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Nevada (Mrs. Lee) for 5 minutes.

Mrs. LEE of Nevada. Mr. Speaker, I rise today to speak about the tremendous impact that the Infrastructure Investment and Jobs Act will have on my home State of Nevada.

Nevada was ground zero for the pandemic, and its effects were especially felt by the travel and tourism industry, which employs tens of thousands of Nevadans and brings in the bulk of the State's revenue each year.

Now that President Biden has signed the Infrastructure Investment and Jobs Act into law, our leading industries in Nevada and Nevada families can take part in the economic opportunities and the thousands of jobs that this bill promises.

Nevada is slated to receive \$2.5 billion for highway investments like the I-15 corridor between Las Vegas and LA, the I-11 corridor between Las Vegas and Phoenix, and \$459 million for public transportation.

This means that not only can Nevada families get to work and school safely and more efficiently but that millions of our visitors each year can more easily experience everything that our State has to offer.

Nevada will also get a minimum of \$100 million to expand access to broadband across the State, meaning that no Nevadan will be left behind.

Nevada also has been ground zero for the effects of the climate crisis as we continue to face the effects of severe drought.

With the passage of my water recycling infrastructure bill, included in this, Nevada will now be more equipped to mitigate the effects of climate change and ensure that our communities have continuous access to safe, clean drinking water for years to come.

Nevada is only able to reap all of these benefits because Congress was able to put politics aside and work together to come up with sensible solutions to create a better future for our Nation. We cannot stop there.

It is critical that we continue to work side by side to pass the Build Back Better agenda and make sure that American families don't just recover from this pandemic but that they prosper moving forward.

□ 1030

HONORING THE CAREER OF WAYNE MAHAR

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. KATKO) for 5 minutes.

Mr. KATKO. Mr. Speaker, I rise today to honor the celebrated career of Wayne Mahar as he prepares to retire after 36 years of weather forecasting in central New York.

Wayne is one of the most recognizable and trusted weather forecasters in

central New York. When planning a hike, barbecue, tailgate, or family outing, central New Yorkers have relied on Wayne to share the weather for nearly four decades.

Originally from Brunswick, Maine, Wayne Mahar began his career working for the National Weather Service. From there, he founded Precision Weather Service, a private weather consulting firm that builds forecasts for major events like the Major League Baseball All-Star Game, the Super Bowl, and red carpet events.

In 1985 Wayne joined the CNY, Central New York, broadcast team in Syracuse, becoming the first full-time meteorologist in central New York. Here he brought a new level of seriousness to the profession by utilizing computer models and hard science to make his forecasts. Through this approach Wayne became known for accuracy, reliability, and his outdoor broadcasts from the CNY Central Weather Deck.

An expert on severe weather events, Wayne was also there to deliver critical, lifesaving information to families during some of the most historic weather events in central New York, including the great blizzard of 1993 and the 1998 Labor Day storm.

Outside of forecasting, Wayne has been a prominent fixture in our community. He is an avid hockey player, hosts regular workshops for young, aspiring meteorologists, and in 2008 he founded the Priscilla Mahar Animal Welfare Foundation. The nonprofit organization was named after his late mother and champions animal welfare causes, raising over a quarter of a million dollars for local animal rescues.

For nearly four decades, families like mine have turned to Wayne Mahar when we want to know if there will be sun, rain, sleet, or just another day of lake-effect snow. While he will be dearly missed on our televisions, central New Yorkers can rest assured they will continue to see him.

When he is not spending time with his children and grandchildren, Wayne has promised he will remain an active part of our community. Personally, I am glad to hear that because I still have not had the opportunity yet to putter a few pucks at him while he stands in the hockey goal, but I am going to do that before too long.

Mr. Speaker, I ask that my colleagues in the House join me in honoring Wayne Mahar for an incredible career in weather forecasting and wishing him the best in his well-deserved retirement.

REMEMBERING THE LIFE OF MAX CLELAND

The SPEAKER pro tempore. The Chair recognizes the gentleman from Georgia (Mr. CARTER) for 5 minutes.

Mr. CARTER of Georgia. Mr. Speaker, I rise today with a heavy heart to remember and honor the life of former Georgia Secretary of State and United States Senator Max Cleland. Max was a
